Notes to the Financial Statements  
June 30, 2007 (unaudited)

---

## **1. General**

QE Funds Corp. (the "Corporation") is a mutual fund corporation incorporated under the laws of Canada on March 8, 2006. The authorized capital of the Corporation consists of an unlimited number of Class A shares, Class B shares, and special shares. Qwest Energy Canadian Resource Class (the "Fund") is the only class of special shares that have been issued by the Corporation, although the Corporation may offer additional classes of special shares in the future.

The manager of the Fund is Qwest Energy Investment Management Corp. (the "Manager"). It is responsible for providing or arranging for the provision of administrative services required by the Fund.

The fundamental investment objective of the Fund is to provide long-term capital appreciation by investing primarily in equity securities of Canadian companies involved in the energy and natural resource sector.

## **2. Summary of significant accounting policies**

These financial statements are presented in accordance with Canadian generally accepted accounting principles ("GAAP"). Significant accounting policies used in preparing the semi-annual financial statements are consistent with those used in preparing the annual financial statements except for the adoption of the new accounting standards as described below.

### **(a) Adoption of new accounting standards**

On April 1, 2005, the Canadian Institute of Chartered Accountants ("CICA") issued Section 3855 "Financial Instruments – Recognition and Measurement" of the *CICA Handbook – Accounting*, which establishes standards for the fair valuation of investments as well as the accounting treatment of transaction costs. Section 3855 applies to fiscal years beginning on or after October 1, 2006. Additionally, Section 14.2 of National Instrument 81-106 ("NI 81-106") issued by the Canadian Securities Administrators in 2005, requires the daily net asset value of an investment fund to be calculated in accordance with Canadian GAAP. The adoption of Section 3855 would result in the use of different valuation techniques for certain investments.

Canadian securities regulatory authorities have granted relief to investment funds from complying on an interim basis with Section 3855, for the purposes of calculating and reporting of net asset value (other than for financial reporting purposes) for up to a one year period ending September 30, 2007. This is to permit further review of the suitability of this new pronouncement for the purpose of calculating purchase and redemption price (the "Transactional NAV") of an investment fund. Depending on the outcome of such review, the method by which the net asset value is calculated as governed by Section 3855 may result in a change of the Transactional NAV of an investment fund on the date of such change.

**QE Funds Corp.**  
**Qwest Energy Canadian Resource Class**  
Notes to the Financial Statements  
June 30, 2007 (unaudited)

---

**Adoption of new accounting standards (continued)**

In accordance with the decision made by the Canadian securities regulatory authorities, a reconciliation between the Transactional NAV and the net asset value calculated in accordance with Section 3855 (the "GAAP NAV") of an investment fund is required in the notes to the financial statements for financial reporting periods in the one year period ending September 30, 2007. Refer to note 10 for such reconciliation for the period ended June 30, 2007.

The provisions of Section 3855 have been applied retroactively without restatement of prior periods. Accordingly, the opening net asset value in the asset value in the Statement of Changes in Net Assets for the fiscal period ended June 30, 2007 has been adjusted. Refer to note 10 for the amount adjusted.

As a result of the adoption of Section 3855, changes to the accounting policies of the Fund are as follows:

**Valuation of investments**

For purposes of Section 3855, all investments held by the fund are classified as "held for trading". Investments are recorded in the accounts at their market value, determined as follows:

- i. Securities listed on a recognized public securities exchange are valued at their bid prices on valuation date. Securities with no available bid prices are valued at the closing sale prices.
- ii. Securities not listed upon a recognized public stock exchange are valued using valuation techniques, on such basis and in such manner established by the Manager.
- iii. Short-term notes, treasury bills and bonds are recorded at average bid quotations from recognized investment dealers.

**Transaction costs**

In accordance with Section 3855, transaction costs are expensed and included in "Transaction costs" in the Statement of Operations. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment, which include fees and commission paid to agents, advisors, brokers and dealers, levies by regulatory agencies and security exchanges, and transfer taxes and duties. Prior to the adoption of Section 3855, Transaction costs were capitalized and included in the cost of purchases or proceeds from sale of investments. There is no impact on the net asset value of the investment fund in using either of these methods. The cost of investments for each security is determined on an average cost basis.

**(b) Deferred Set-up Costs**

The initial costs incurred to set up the recordkeeping system, as well as the programming costs incurred to perform the rollover of the opening assets have been capitalized as deferred set-up costs and are amortized on a straight line basis over 5 years. The amortization of these charges is included under administrative expenses.

**QE Funds Corp.**  
**Qwest Energy Canadian Resource Class**  
Notes to the Financial Statements  
June 30, 2007 (unaudited)

---

**(c) Security transactions and income recognition**

Security transactions are accounted for as of the trade date. Income and expenses are recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded daily as it is earned. Realized gains and losses from security transactions are calculated using the average cost basis.

**(d) Valuation of fund shares**

Net Asset Value in respect of the Fund and each Series of shares is calculated by the Manager (or its agent) as at the close of business each NAV Valuation Day (the "Valuation Day") by subtracting the aggregate amount of the Fund's liabilities attributable to that Series from the aggregate value of the Fund's assets attributable to that Series. A Valuation Day is any day on which the Toronto Stock Exchange is open for trading.

The Net Asset Value per share of each Series is the amount obtained by dividing the Net Asset Value attributable to that Series by the total number of shares of that Series outstanding on that date.

**(e) Foreign currency translation**

The market value of foreign investments and other assets and liabilities are translated into Canadian dollars at the exchange rates prevailing at the close of each Valuation Day. Purchases and sales of foreign securities and the related income are translated into Canadian dollars at rates of exchange prevailing on the respective dates of such transactions.

**(f) Use of estimates**

These financial statements, prepared in accordance with Canadian generally accepted accounting principles, include estimates and assumptions by management that affect the reported amounts of certain assets and liabilities at the date of the financial statements and the reported amounts of certain revenue and expenses during the period. Actual results could differ from these estimates.

**(g) Earnings (loss) per share**

Earnings (Loss) per share amounts are determined by dividing the net increase/(decrease) in net assets from operations for each series by the weighted average number of shares outstanding during the reporting period for each series.

**3. Deferred set-up costs**

	<b>June 30, 2006</b>	<b>December 31, 2006</b>
Deferred set-up costs	\$ 25,618	\$ 19,634
Less: accumulated amortization	(5,764)	(2,454)
	19,854	17,180
Less: current portion	(5,124)	(3,927)
	\$ 14,730	\$ 13,253

**QE Funds Corp.**  
**Qwest Energy Canadian Resource Class**  
Notes to the Financial Statements  
June 30, 2007 (unaudited)

---

#### **4. Share transactions**

The Fund is divided into Series A, F and O, and the number of shares of each series that may be issued is unlimited. Currently, only Series A shares of the Fund are offered.

Series A shares of the Fund are offered on a continuous basis in all provinces and territories in Canada, except Quebec, through a registered dealer. Shares may be purchased, switched or redeemed at their net asset value per share, on any valuation day. If the shares are redeemed or switched within 90 days of purchase, shareholder may be charged a short-term trading fee of 2% of the value of the shares redeemed.

The number of Series A shares issued and redeemed at net asset value is summarized as follows:

	<b>June 30, 2007</b>	<b>December 31, 2006</b>
Share Issued	8,822,499	4,452,348
Share redeemed	(3,401,868)	(2,856,857)
Shares issued and outstanding	5,420,631	1,595,491

#### **5. Distributions**

The Fund may pay annually to shareholders ordinary dividends and capital gains dividends. Ordinary dividends will generally be paid in December and capital gains dividends will generally be paid in February. Dividends may be paid at other times determined by the Manager.

#### **6. Income Taxes**

In each taxation year, the Corporation is taxable at corporate tax rates applicable to a mutual fund corporation on its taxable income and is also subject to a 33 $\frac{1}{3}$ % refundable tax (the "Refundable Tax") on taxable dividends received by it from taxable Canadian corporations. Corporation will also be subject to Large Corporations Tax under Part I.3 of the Tax Act on, generally, the amount by which its taxable capital exceeds its capital deduction.

In the future, the Corporation may offer additional classes of shares. If additional classes of shares are offered, the Corporation's tax position will include, among other things, the revenues, deductible expenses, capital gains and capital losses of all of its investment portfolios. For example, net losses or net capital losses in respect of the investment portfolio of a particular class may be applied to reduce the net income or net realized capital gains of the Corporation as a whole. Generally, this will benefit the investors in the classes other than the particular class. The Corporation will, on a discretionary basis, allocate its income or loss and the applicable taxes payable to each class. The Corporation may pay capital gains dividends to shareholders of any class so that it can receive a refund of capital gains taxes it has paid. Capital gains taxes may arise when a shareholder of one class switches shares to another

**QE Funds Corp.**  
**Qwest Energy Canadian Resource Class**  
Notes to the Financial Statements  
June 30, 2007 (unaudited)

---

**Income Taxes (continued)**

class. In particular, significant capital gains taxes may arise when a shareholder of the Fund switches to another class, as the Corporation may be required to realize capital gains on property which accrued prior to the property being owned by the Corporation. This results from tax-deferred transfers of property to the Corporation from various limited partnerships.

**7. Expenses**

The Fund is responsible for all charges and expenses incurred in connection with its operations, including regulatory, printing, legal and audit expenses.

The total brokerage commissions paid by the Fund with respect to security transactions for the period ended June 30, 2007, \$26,486 (2006 - \$101,116).

**8. Management fee**

The management is calculated at 2.5% per annum of the net asset value of the Fund, paid monthly.

**9. Related party balances and transactions**

The Manager has retained Heritage Bancorp Ltd. (Heritage), a company related to the Manager by common ownership and directors, to perform certain administrative functions on behalf of the Manager.

Balances and transactions are as follows:

---

	<b>June 30, 2007</b>	<b>December 31, 2006</b>
Heritage Bancorp Ltd.		
Administration fee	\$ -	\$ 25,156
Accounts payable	-	-
Qwest Energy Investment Management Corp.		
Management fee	\$ 153,539	\$ 318,894
Management fee payable	55,977	30,581
Accounts payable	14,447	9,879

---

All amounts payable are due on demand and non-interest bearing.

**QE Funds Corp.**  
**Qwest Energy Canadian Resource Class**  
Notes to the Financial Statements  
June 30, 2007 (unaudited)

---

**10. Reconciliation of Net Asset Value**

In accordance with the decision made by the Canadian securities regulatory authorities, a reconciliation between the Transactional NAV and the GAAP NAV of an investment fund is required for financial reporting periods in the one year period ending September 30, 2007 (see note 2). For investments that are traded in an active market where quoted prices are readily and regularly available, Section 3855 requires bid prices (for investments held) and ask prices (for investments sold short) to be used in the fair valuation of investments, rather than the use of closing prices currently used for the purposes of determining Transactional NAV. For investments that are not traded in an active market, Section 3855 requires the use of specific valuation techniques, rather than the use of valuation techniques by virtue of general practice in the investment fund industry. These changes account for the difference between Transactional NAV and GAAP NAV.

The impact of the adoption of Section 3855 on the net asset value of the Fund is as follows:

	Net Asset Value			Net Asset Value Per Share		Opening NAV Section 3855 Adjustment
	Transactional NAV (note 2)	Section 3855 Adjustment	GAAP NAV	Transaction al NAV	GAAP NAV	
(Thousands of dollars, except per share amounts)						
As of June 30, 2007						
Qwest Energy Canadian Resource Class – Series A	46,992	(676)	46,316	8.63	8.54	(88)

**11. Statement of portfolio transactions**

A Statement of Portfolio Transactions (unaudited) for the period ended December 31, 2006 for the Fund may be obtained without charge by writing to:

*Qwest Investment Fund Management Ltd.*
