How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much the fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Qwest Investment Fund Management Ltd. has rated the volatility of this fund as **medium**.

Because this is a new fund, the risk rating is an estimate by Qwest Investment Fund Management Ltd. Generally, this rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the Risks of Investing in a Mutual Fund?" section of the fund's simplified prospectus.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

Who is this fund for?

Investors who are:

- seeking dividend income and long-term capital growth;
- not concerned with short term price fluctuations;
- planning to hold their investments for the long term; and
- willing to accept a medium level of risk.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A shares of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

The fund's expenses are made up of the management fee (including the trailing commission), operating expenses, and trading costs. The series' annual management fee is 1.70% of the series' value. Because the series is new, the operating expenses and trading costs are not available.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you.

Qwest Investment Fund Management Ltd. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch shares of the fund.

Fee	What you pay
Short-term trading fee	You may be required to pay the fund a short-term trading fee of 2% of your investment amount if you redeem securities of the fund within 90 days of purchase.
